My Website

EDUCATION

- **JAVASCRIPT REVAMP 2023**

  36hr master course of advanced JavaScript

- **REACT FRON TO BACK**

  Learn modern React by building projects with Firebase 9 and full stack MERN app

- **MERN STACK**

  Build and deploy a full stack social media project with Node.js, Express, React, Redux&MongoDB

- **COMPLETE FLUTTER DEVELOPMENT BOOTCAMP WITH DART**

  Officially created in collaboration with the Google Flutter team

- **THE COMPLETE FLUTTER UI MASTERCLASS IOS, ANDROID, WEB**

  Making beautiful and responsive iOS, Android, and Web user interfaces using Flutter and Dart!

PROFILE

Motivated software developer with over 6 years of experience in Web Developing and designing using TypeScript technologies. I build high performance production ready Web Apps using MERN Stack. Seeking to leverage solid technical skills switching from freelancing to commercial development and advance my career as part of a team

SKILLS

- Efficient with React ecosystem)
- Strong understanding of popular Three-Tier Architectural Pattern design with MVC structural pattern for the backend and Component-Based Architecture on the client...
- Good knowledge of JavaScript / TypeScript / Node / Express / Git / CRUD operations etc.
- Build robust REST API with best security practices
- Comfortable with NoSQL databases structure (MongoDB, Firebase, Redis)
- Have experience with third party CMS integrations APIs (Sanity.io)
- Work with popular JavaScript state managing libraries like Zustand and Redux
- Unit & Integration testing with React Testing Library & Jest

EXPERIENCE

- **ENTRY-LEVEL SOFTWARE DEVELOPER**

  Freelancing - 2019

  Creating simple client side Websites for my friends and improving my UI skills

- **JAVA PROGRAMMING MASTERCLASS**

  Core Java 17 computer programming course

- **INVISION STUDIO FOR UI DESIGNERS**

  Interface Design and Prototyping

LANGUAGES

English fluent, Russian native

HOBBIES & INTERESTS

- Build new projects
- Lifting weights

MY GOAL

Want to start my journey like part of the development team in awesome projects. Be usefull, upgrade myself and become more efficient developer!

STATUS

- Ready for interview
- Job ready in a week

- **MOBILE DEVELOPING / PROTOTYPING**

  Freelancing - 2019-2021

  Studying and working more on OOP programming with Java/Kotlin. Built some first native simple mobile applications with Android Studio. Spent half a year on cross-platform Flutter/Dart. Got more efficient with Material Design and UX

- **BACK TO WEB**

  Freelancing - 2021-2022

  Improving my skills building more complex Web applications with a MERN stack. Brought several projects into production for my private clients, significantly improved SEO, architecture, and optimization for continued use. Creating collections of independent microservices with lightweight APIs and third parties integrations. Managed projects I created for my clients ...

- **WEB DEVELOPMENT**

  Freelancing - 2022 till now...

  Mentored entry-level guys, helping them to start. Developed more complex and stable production ready pieces of software. Launched my own projects with focus on CEO end lifecycle of an application. Interested in Video streaming projects as well as MDX blogs and new approaches in UI/UX.
