SKILLS

- HTML5 / CSS
- React / NextJS
- NodeJS
- Express
- TypeScript / JavaScript
- NoSQL databases structure (MongoDB, Firebase, Redis)
- Third party CMS integrations APIs (Sanity.io, Cloudinary, Kinde, Mailtrap)
- Zustand / Redux
- React Testing Library & Jest
- GIT
- DEPLOYMENTS:
- Hostinger
- Vercel
- Heroku
- Render
- UI / UX
- Tailwind / Framer Motion
- Figma / InVision Studio

LANGUAGES

Russian: Native
English: Fluent

Dmitry Boroday

MERN Stack Developer

"I build performant, production-ready web apps using the MERN stack"

WORK EXPERIENCE 6+ YEARS

Dec 2025 - Mar 2026

MERN Stack Developer | Eco Labs | United States

- Developed scalable full-stack web applications for e-commerce and SaaS products - assisted with technical analysis, application workflows, and software quality processes
- Created RESTful APIs with Node.js and Express.js for product management, user accounts, and order processing
- Worked with MongoDB aggregation, database optimization, and backend scalability improvements
- Integrated third-party services and APIs including Cloudinary, Stripe, Firebase, Socket.IO, JWT authentication, and email services
- Configured CORS, environment variables, API security, and production deployment workflows
- Deployed and maintained production applications using Vercel, Render, Hiroku, and cloud hosting environments

Jun 2022 - Feb 2025

Full Stack Software Engineer | Saigon Technology | Switzerland

- Completely rebuilt the advertising agency platform
- We transferred the entire infrastructure from WordPress to React and NextJS
- Maintained deployment pipelines and collaborated with designers, QA engineers, and product stakeholders to transform business requirements into scalable technical solutions
- Participated in debugging, bug fixing, and software quality assurance processes
- Built the entire architecture for optimal technical SEO optimization, managed to reduce payload times to almost zero values - which gave us top ten search results
- Worked with Sanity aggregation, database optimization, and backend scalability improvements with more than 300+ advertising agencies

May 2019 - Jun 2022

Frontend Developer | CSSSR | UA

- Developed responsive frontend interfaces with React, Zustand/Redux, Tailwind CSS, and modern JavaScript (ES6+)
- Collaborated directly with clients to implement custom business features and product improvements
- Gained practical experience with JavaScript, React.js, Node.js, Express.js, and MongoDB technologies in production environments

EDUCATION

Leading specialist in the field of computer systems and networks, Kiev National Polytechnic University

Ukraine | Kiev Sep 2015 - Aug 2016

Bachelor of computer systems and networks, Kiev Technical College

Ukraine | Kiev Sep 2011 - Aug 2015

PROGRAMS

- JavaScript Course
- Modern React Course
- The Complete Flutter UI Masterclass
- Java Programming Masterclass
- Figma Interface Design and Prototyping
- Complete MERN Stack Development Bootcamp
- REST API / CRUD operations
- AWS Cloud Services
